

**1X6 WORD CLOCK (SDIF2) DA - WC2600****FEATURES**

- High Quality, Low Cost
- 1x6 Word Clock DA
- For 48 kHz TTL, SDIF2 Word Clock signals
- Stand alone box

**SPECIFICATIONS****INPUTS**

|                                  |                                  |
|----------------------------------|----------------------------------|
| One (1), Terminated, 75 $\Omega$ |                                  |
| Level                            | TTL                              |
| Return Loss                      | 35 dB min. at 5MHz               |
| Connectors                       | BNC                              |
| Operating Temp.                  | 0 $^{\circ}$ to +50 $^{\circ}$ C |

**OUTPUTS**

|  |                              |
|--|------------------------------|
| Six (6), 75 $\Omega$ , source terminated |                              |
| Level                                    | TTL                          |
| Return Loss                              | 35 dB min. at 5 MHz          |
| Tilt, field, & line                      | DC Coupled, 0.1% max.        |
| Transient Response                       | 0.5%, max overshoot, ringing |
| Out to Out Isolation                     | 50 dB min. at 5 MHz          |
| Electrical Length                        | 20 nsec                      |
| Connectors                               | BNC                          |
